ONEHEALTH

NUMBER ONE HEALTH

The Number One Health Group, located on Harley Street, London, is a high quality private doctor, medical services, and medical consultancy provider. Their drop in private doctor service, early/late bookings and clinic in central London make it easy for you to get all the help and advice you need.

Our practice provides excellent quality private health care, products and health screening at convenient times. Our doctors have clinical experience in all aspects of general practice with a special interest in general medicine, health screening, sexual health, travel health, anti virals, children's vaccines, company health, audio and rapid blood tests and UKOOA medicals.

The practice offers consultancy services in pandemic flu planning and resources as well as free on-site Pandemic Flu question and answer sessions. They also offer a large range of visa medicals to countries including Saudi Arabia, China, Cayman Islands, Russia (HIV), Australia, New Zealand and Canada and a full vaccination service.
